PROJECTS

◆ As- E-Learning BrainWeb :

[Github Link](#) | [Live Link](#)

- **Feature** : I developed a responsive e-learning brainWeb platform with a user-friendly interface and advanced features to enhance the learning experience. This website has a User-Friendly Interface, Responsive Design, Payment Gateway, User Authentication, Instructor Dashboard.
- **Tools** : React.js, React router, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS

◆ As-React Dev Forum

[Client](#) | [Sever](#) | [Live Link](#)

- **Feature** : This is a single page application with Firebase authentication and MongoDB cloud. update, deleted, added and responsive
- **Tools** : React.js, React router, Express, Tailwind CSS

◆ As-Brand Shop

[Client](#) | [Sever](#) | [Live Link](#)

- **Feature** : This is a single page application with Firebase authentication and MongoDB cloud and responsive all the project. Allows users to view, add, delete, and update data after logging in according to their role.
- **Tools** : React.js, React router, Tailwind CSS

Experience

I collaborated with the Creative Coders team for 3 months to develop the BrainWave e-learning project. Together, we designed and built a responsive, user-friendly platform featuring categorized courses, a dynamic blog section, and a secure Stripe payment gateway.
